

Queen Sugar

(Nova is still paying an emotional toll for "borrowing" \$10,000 from Charley's bank account. Here, the sisters face off).

Nova

You ain't said nothing but bullshit up until now. So what do you mean?

Charley

If there's something I want to say Nova I'm going to say it.

Nova

You been having sugar poured on shit all your life.

Charley

My Life?...My life is anything but sugar coated. I lost my husband, I lost my life, Micah lost his life.

Nova

Micah can build a new life if you wasn't so over protective. And if you think my lifestyle of sleeping with a woman is going to corrupt micah... you're just hateful.

Charley

I can care less about you sleeping with a woman.

Nova

Well if that ain't it, what lifestyle you talking about?

Charley

You're not a mother. You grow weed.

Nova

And you smoke that weed with me. Now what?

Charley

(sighs)

Nova

I'm waiting

Charley

If it's for an apology you're going to be waiting a long time.

Nova

I don't want a damn apology. I want you to be a grown woman and come out with it.

Charley

You live in the lower ninth. I'm not going to put my son in the position to be killed, shot, or in need of a 10 thousand dollar bailout.

Nova

Oh.. Here we go.

Charley

You wanted me to go there, so I'm there. Your ego is so big you can't even apologize without making excuses. You wrong! You took the money, but no no no, you can't say it huh?

Nova

Why say sorry for something I did that was right and for a greater good.

Charley

What about my damn greater good?

Nova

You know what?.. You.. You a bougie bitch. You know that right?

Charley

I may be bougie, but at least I'm not having an affair with a married man. I actually value marriage. Even if no one else in my life does. And I'm not going to have my son be stuck in a house full with people who claim to love one another, disrespect one another, and break their promises. You want to live foul? Okay then do you. But you leave my son the hell out of it.
